

Free energy-saving upgrades for non-profit housing co-ops

Help your co-op save money and increase the comfort of your homes. It's free, and household income-testing is not required.

The Energy Conservation Assistance Program (ECAP)

provides members of qualified non-profit housing co-operatives with **FREE** home energy assessments and installations of energy-saving products, which may include:

- energy-saving light bulbs
- water-saving showerheads
- water-saving faucet aerators
- door weather-stripping

Townhomes may even qualify for:

- wall insulation
- attic insulation
- ENERGY STAR® fridges

- crawlspace insulation
- high-efficiency gas furnaces

I was extremely impressed with BC Hydro and FortisBC's ECAP... from the very first contact with the program, I felt that they cared and wanted to help our housing co-op.

Lisa,
Friendship Co-op

Related programs may help apartment co-ops benefit from high-efficiency boilers.

Apply by June 15, 2024 to take part for FREE!

A trained evaluator will install the products and answer any energy efficiency questions you may have, saving you time and money, and increasing the comfort of your home. Get started today! Start by calling the approved ECAP contractor (It's On Electric) at **1-855-560-3227**

We're working together to help B.C. save energy.

Supports co-ops and co-op members to find ways to save energy and reduce waste.
